Success Story with Ealing Mencap

This blog is about Jordan who attends Ealing Mencap.

In 2012, Jordan joined Ealing Mencap.

He wanted to learn how to travel independently in London.

After becoming an independent traveller, Jordan applied for Ealing Mencap's Project Search program.

He got an internship at the Hilton Heathrow Terminal 5 Airport.

For a year, he worked hard, learning new skills in 3 different areas, kitchen porter, cleaner and meeting operations.

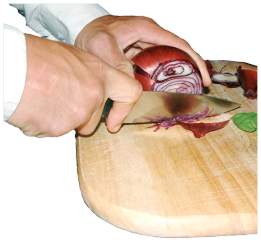

After finishing the program, Jordan felt really proud.

Ealing Mencap kept supporting him, and he got a job at Mandeville School as a kitchen assistant.

He’s been there for 9 years now!

At work, Jordan helps with cleaning and preparing food for lunch.

He enjoys the friendly atmosphere and how the staff help him learn new things.

Even though it was hard at first, now he feels confident in his job.

During the school holidays, Jordan goes to Ealing Mencap's Dare 2 Dream Service.

He likes to see his friends, learn new skills, and get help with maths.

Jordan's story shows how Ealing Mencap helps people with Learning Disabilities achieve their goals.

Thank you to Jordan for sharing his experiences with us.
